**Have partnered to provide RAIN BARRELS for the Residents of The City of Prince George.**

**Rain Barrels are available at the REAPS Compost Demonstration Garden (1950 Gorse St.)**

If you're harvesting rainwater with rain barrels to use for watering your landscaping (plants and gardens), the rainwater can help to improve the health of your gardens, lawns, and trees. Rain is a naturally soft water and devoid of minerals, chlorine, fluoride, and other chemicals.

**For more information on the benefits of Rain Barrels  
Contact REAPS at 250-561-7327 or [events@reaps.org](mailto:events@reaps.org)**
